

ARIZONA SILVER BELT.

VOLUME XXV. No. 18.

GLOBE, GILA COUNTY, ARIZONA, THURSDAY, AUGUST 28, 1902.

Established 1878

GLOBE DISTRICT MINING NEWS.

Everything Points Strongly to Increased Activity in Copper Mining.

IMPORTANT WORK PLANNED

Globe-Boston Copper Mining Company to Resume Development. Concentrator for the Yo Tambien Mine. Old Dominion—Work on the New Boilers Will Soon be Finished.

The Old Dominion produced about 800,000 pounds of copper in July, its normal production. Eastern advisers are to the effect that there will be no changes inaugurated at the property until sometime during the coming fall, when President Smith and some of the directors will visit Globe. The most important factor in Old Dominion affairs is the contemplated reduction of freight rates by the Southern Pacific and G. V. G. & N. railroads. A new schedule of rates was submitted to the Old Dominion management, but the reduction is not considered satisfactory.

Last year the Old Dominion paid \$365,000 in freight, which is equal to 34 cents per pound of production. With the saving already effected in the cost sheets, the proposed reduction in rates should enable the company to show a profit of at least two cents per pound, with copper at present prices, but the mine management anticipates that the railroads will name still lower rates, as the proposed Phoenix & Eastern railroad will run within twenty-five or thirty miles of the Old Dominion property, and it will not be very expensive to build to meet the new road, provided the Old Dominion was assured of materially lower rates by doing so.

THE GLOBE BOSTON. W. F. Kennedy, of Leavenworth, Kansas, secretary of the Globe-Boston Copper Mining company; H. S. Dornitzer, of New York, and Charles Mayer, of Cincinnati, Ohio, stockholders, after having spent several days looking over the company's property here, and consulting with Geo. S. Andrus, superintendent, and the local stockholders, left for the east the fore part of last week. While here they appointed Wm. Mills Williams mine foreman, an excellent selection. The company have decided to sink their shaft—now down 216 feet—250 feet deeper, and their advertisement inviting bids for the work is published elsewhere in this issue.

UNITED VERDE. Senator W. A. Clark, president of the United Verde, in an interview with a Jerome News representative, said: "The fire in the mine is burning from the 150 to the 500-foot levels and from 200 to 300 feet in width. It has been bulkheaded in and they are forcing gas upon it from two generators. To completely extinguish the fire it will be necessary to entirely cover it with this gas. After doing its work the gas will be taken from the mine through the 500-foot tunnel, when work can be again carried on. The senator also said that the condition of the copper market was such that they were in no hurry about starting up at present. There was increased production of 25,000,000 pounds for the first six months of 1902 over the last six months of 1901. This immense production of copper will naturally produce a surplus, and this surplus would force the red metal down to 10 cents, and there are but one or two mines that can afford to produce copper at 10 cents per pound, and Montana does not contain one of these."

LOCAL MINING NEWS. F. W. Hoar, superintendent of the Old Dominion Copper Mining & Smelting company, returned last night from a visit to Clifton and Morenci.

Thos. Kavanaugh has been given full charge of the Troy-Manhattan Copper company's property at Troy, as superintendent, and General Manager Chas. H. Cutting has transferred his headquarters to New York.

Samuel A. Barron, general manager of the Federal smelter, of El Paso, was here last week negotiating with local mine owners for ore shipments. The Federal is offering much better terms for treatment than the El Paso smelter.

C. C. Clark, of Kelly, N. M., arrived last Saturday and his son V. V. Clark, mining engineer and metallurgist, is expected in tonight. Their business here is to superintend the construction of a concentrating plant for the Pinto Creek Mining & Smelting company, on Pinto creek, the machinery for which is enroute to Globe.

J. T. Hinds, of the Prescott Realty company, of Prescott, Arizona, arrived on last night's train. His business

here is in connection with the Taylor, House, Stevenson and Shoop, and other groups of claims, bonded by T. C. Archer, of Prescott. Mr. Hinds informs us that they expect to begin work on the property at an early date.

Arthur Houle, for the past year smelter superintendent for the Old Dominion company, has resigned to accept a similar position with the North American Copper company, whose works are at Grand Encampment, Wyoming. Mr. Houle will leave Globe next Saturday morning for his former home in Michigan to visit for a few weeks, before proceeding to Wyoming.

The new Stirling boilers at the Old Dominion smelter have been set up and are now being bricked in. The Stirling consists of a cylindrical boiler resting on the floor of the boiler vault, and from which radiate three sets of tubes, each set connecting at the top with a cylindrical chamber, and the three top cylinders being connected also by horizontal pipes. The arrangement of the tubes and cylinders afford a maximum of heating surface and secure economy of fuel.

The Western Mining World takes an optimistic view of the copper situation. It says: "Europe will need a vast amount of copper during the next four months because of the increased consumption there and lessened exports from here, and because contracts with copper producers will expire, and then American consumers must of necessity become large contractors for their wants. We estimate that the consumption for the ensuing four months of this year will be fully 50,000,000 pounds per month in America, and that contracts will be made for export before December which will aggregate 12,000 to 15,000 tons per month. This should carry the price of copper legitimately to 13 or 14 cents per pound in this country and advance the price in London £10 to £15 per ton."

TROY CORRESPONDENCE

A Lot of Interesting Items from Our Neighboring Mining Camp.

There has been considerable rain the last few days on the south slope of the Pinal mountains—Friday, Saturday and Sunday. The canyon leading from Bob Tail Mines, and Dripping Springs canyon, came down booming Sunday and also Sunday evening there was a very heavy rain here in Troy.

Saturday John Kavanaugh left on a visit to Globe, returning Monday. The entertainment and social given Sunday evening by the Sunshine club was well patronized.

As usual, a large crowd attended the dance Saturday night at Miners' union hall.

Sunday and Monday the Gila river was so high at Riverside that teams could not cross.

J. J. McCarthy is a delegate from here to the territorial convention at Tucson.

The county primaries to elect delegates to the county convention, which meets in Florence on September 22, will be held here on September 13. Troy is entitled to two delegates to the county convention.

Thos. Rutledge arrived here Monday from his mines near Peg Leg well.

A flow of 60,000 gallons of water in twenty-four hours has been struck in the Alice shaft. The No. 6, Snook duplex pump could not handle the same, and a No. 5 Cameron pump had to be used also.

The bottom of the Alice shaft is highly mineralized.

Troy Items.

The late rains in this section have been very beneficial and grass is growing nicely.

John B. Luna has been having serious trouble with his eyes. Since last Friday he has been obliged to remain in a dark room. Dr. W. L. Woodruff is giving this case the closest attention.

Mrs. Anna Valding, of Globe, opened a dancing school Tuesday evening. She started with fifteen pupils. Al O. Brawner, who has been handicapped at the dances in the past on account of not being able to dance anything but square dances, is taking lessons, and feels confident that in a short while he will be able to give the young gentlemen of Troy a hard run for the money.

Sunday the people of Troy had an opportunity to get action on their money, there being horse races. First race, quarter-mile dash, \$100 a side, between Bate Bros' bay horse, known as "the Garrett horse," and Devine & Kavanaugh's bay horse Shamrock. Don L. Pugh rode Shamrock and Bird Edwards "the Garrett horse." "The Garrett horse" won. It was a close and exciting race. Betting was lively and considerable money changed hands. Second race, 200 yards, \$50 a side, between Wm. Lawrence's buck-

skin pony, ridden by Jas. Gibson, and M. C. Holaday's brown mare, ridden by Bird Edwards. The Holaday horse was the favorite, but the Lawrence horse won. Considerable money also changed hands on the result of this race—Cor. Florence Blade.

Citizens of McDowell, accompanied by Colonel Wilson, yesterday called on Governor Brodie and presented a petition asking him to take such steps as he deemed advisable toward securing the removal of the Apache Indians now living at McDowell. This is relative to the matter that was mentioned in detail in yesterday's issue. The governor announced his willingness to do all in his power to accomplish this result.—Republican.

Mrs. Carrie N. Thompson has been advised that the transport Burford, on which the remains of her brother, Harry W. Nash, were shipped, did not sail from Manila until July 29. They should reach Globe within the next week.

PRISON SUPERINTENDENT

Col. William M. Griffith, of Tucson, Was Appointed Last Monday.

Gov. Brodie yesterday appointed Col. Wm. M. Griffith, of Tucson, superintendent of the territorial prison. This appointment has been predicted for some time, and it was understood that it would be made about September 1. Colonel Griffith will take charge of the institution at that time. He will have the appointment of all the under officers and guards, so that there will be much uneasiness among all those holding positions in the prison now during the next week or two. It is understood that Walter T. Gregory has been slated for the position of secretary and storekeeper of the prison. Several gentlemen have been mentioned for assistant superintendent. The position of guard is more attractive than it used to be, for some of the guards receive a salary of \$100 a month, and the captain of the guard gets \$115.

Colonel Griffith served as United States marshal for this territory during the first administration of President McKinley. Since his retirement from office he has been actively engaged in mining enterprises. The place to which he has been appointed is one that requires a great deal of executive ability, and Colonel Griffith in the course of his long residence in this territory has shown that he possesses that in abundance.

The management of the penitentiary has been careful and economical under the administration of Herbert Brown, the present superintendent, and the institution is probably in better shape than it has ever been before. It is understood that Mr. Brown will not leave Yuma at the end of his term of office, but will take charge of the Hotel Gondolfo. Mr. Brown has been at the head of the penitentiary about four years. He was appointed by Governor Murphy about the time he succeeded Governor McCord.—Republican.

Globe Fire Losses Adjusted.

Edward Weck, of Globe, and J. H. Clinkscales, of Jerome, insurance adjusters, have adjusted all the losses occasioned by the recent fire, with the exception of the claim of D. S. McDonald, which will doubtless be satisfactorily settled.

Following are the figures showing the insurance carried by the several claimants and the losses allowed:

J. Warren Young—Total insurance, \$8,500; allowed, \$3,556.35.

Chas. Hillman—Insurance on building and furniture, \$1,700; allowed, \$1,700.

W. J. Roberts—Insurance on building, \$3,000; allowed \$3,000.

Van Slyck & Meyers—Insurance on stock, furniture and fixtures, \$2,700; allowed \$1,788.20.

Henry & Towle—Insurance \$500; allowed \$500.

J. S. Towle—Insurance on barber shop building, \$500; allowed \$35.70; insurance on furniture and fixtures, \$200; allowed \$30.50.

A. L. Waters, M. E., who is connected with several large mining and smelting companies in Mexico, has written from Guadalajara that he and his family expected to leave there for the United States on the 20th inst., for a two months' trip. Mrs. Waters and little daughter will spend the time in Denver and at Spring Lake, Mich. Mr. Waters will visit El Paso, Denver, Chicago, Philadelphia, New York and Boston in the interests of the various companies with which he is connected.

Hobson Bros., of Ventura, California, the gentlemen who bought the Pringle range in this county, have closed a deal for another ranch and 6,000 head of cattle near Deming, New Mexico.

Wm. McFadden, the well-known Sierra Ancha cattleman, spent the week in town.

DEMOCRATIC PRIMARIES

The Contest in Globe Rivalled the General Election in Interest.

THE COMPLETE RETURNS

The Vote of Every Precinct, Together With the Majorities and Pluralities Given in the Table Below. The Election Loosely Conducted. Many Votes Cast Were Illegal.

The democratic primary election held in Globe on Saturday last aroused greater interest, probably, than any similar contest previously held here. The reason is to be ascribed to the large number of candidates for places on the ticket.

The election was supposed to have been held under the primary election law of the territory and the Crawford primary system, but, in reality, few of the legal requirements governing elections in Arizona were observed.

With but few restrictions as to the qualifications of voters enforced and in consequence of the strong competition for many of the nominations, the vote cast was unusually heavy, the total number being 497. In 1900, when the number of electors in the precinct was much greater than it now is, 551 votes were cast in the democratic primary. The contest last Saturday was very much like that of two years ago in that many persons

voted who were not qualified. This is shown to be true by the fact that Mark Smith received only 444 votes in this precinct in 1900, which is 117 votes less than were cast in the primary of that year, and 53 less than were cast last Saturday.

A combination of candidates headed by Leroy Middleton for sheriff, attempted to vote most of the Mexicans in the camp and met with flattering success during the first hour after the polls opened, but from that time, owing to strenuous objection on the part of some of the other candidates, the election officers challenged Mexican voters, and few were found to be qualified. Foreigners of other nationalities, however, were as a rule, not challenged, and many republicans voted also, and the result was the reform aimed at by the new primary system was entirely lost.

The counting of the ballots began an hour after the polls closed and was not completed until 2:30 Sunday morning. During the early hours of the count the court room was filled by candidates and interested friends, and many remained until the result was made known.

Returns from outside precincts were slow in coming in. The result at San Carlos and Summit precincts were made known Saturday evening and the Salt River returns arrived about the time the count here was completed. Theodore Randall, who arrived Monday, announced the vote at Tonto, and Tuesday evening the mail brought the returns from Rye and Payson. Pleasant Valley returns were brought by courier on Tuesday. Pine has not been heard from at this writing, but the returns from that precinct will probably arrive by mail this evening. They cannot change the result of the vote for any office.

Colonel Wilson has 469 votes to C. M. Shannon's 91, for delegate to congress. The Pine vote will increase Wilson's total.

The county convention will meet here next Saturday forenoon to canvass the vote and name a new central committee.

LABOR DAY CELEBRATION

Fine Program Arranged by Globe Miners' Union. A General Holiday.

Indications are that Globe will lead all other towns in Arizona in the observance of Labor Day, Sept. 1.

Globe Miners' Union is displaying much interest and enthusiasm in the celebration of the workmen's holiday. The union has appropriated a large sum of money, and has arranged an elaborate program to cover the entire day and evening, to include a grand parade headed by the Globe band, sports and athletic games of various kinds during the afternoon, and in the evening a band concert, speaking, and a grand ball, with refreshments, at Odd Fellows' hall.

The orators will be F. H. Richardson, of Pueblo, Colo., and J. W. Sharkey, of Globe. Albert Odell will be marshal of the day, and J. J. Leamy, master of ceremonies.

The observance of Labor Day in Globe will be general; all the business houses will be closed and the people generally will participate in the celebration.

An Interesting Cave Discovered.

Wm. McFadden, of the Sierra Ancha, tells us of a mammoth cave, two miles from his ranch, which he discovered last winter and recently explored for the first time. It was

evidently the home of cave dwellers in remote times. The cave is about 400 feet in length and contains fourteen chambers or rooms, some of them of large dimensions. The entrance is hidden by a growth of brush, and at the extreme end of the cavern is an opening to the surface, made evidently for air and as an exit of escape.

The floors of the rooms are cemented with clay and sand and are covered with a foot or more of dust, the accumulation of centuries. The only thing of interest found was a human skull. The rooms are strewn with broken pottery. A more careful examination of the cavern, which Mr. McFadden intends making, will doubtless disclose other interesting relics.

Wade Collins is in receipt of a letter from his sister, Mrs. Frank Gates, stating that she is slowly recovering from a recent severe illness. Frank, who has been with his wife in San Francisco, is expected to return to Globe within a few days.

Andrew J. Loomis, of the U. S. internal revenue service, whose headquarters are at Santa Fe, N. M., has been in town for the past week. Mr. Loomis was for many years engaged in the newspaper business at Silver City and Deming, N. M.

Tonto Creek and Salt River are reported to have been very high last Saturday.

COL. WILSON HAS WON.

Maricopa's Delegates to the Territorial Convention Instructed for Him.

SPECIAL TO THE SILVER BELT.

PHOENIX, ARIZ., Aug. 27.—The Maricopa county democratic convention, for the selection of thirty-four delegates to represent this county in the territorial convention at Tucson on September 3, was held today in Tempe.

In the temporary organization the Wilson forces won by a vote of 76 to 54.

The proceedings of the convention were harmonious.

The delegates chosen to attend the territorial convention were instructed to vote as a unit for Col. J. F. Wilson for delegate to congress, first, last and all the time.

TERRITORIAL POLITICS

In the democratic primary at Prescott the Wilson and Hobbs ticket was successful, receiving 510 votes against 198 for the opposition ticket.

The Star says that reliable advices from Santa Cruz county are to the effect that Col. Wilson will have the delegation of that county in the territorial convention.

Pinal county's delegates to the democratic territorial convention are: J. J. McCarthy, Troy; J. F. Burns, Cottonwood; Alex. Barker, Alma; Geo. P. Blair, Mammoth; J. F. Mayhew, J. G. Keating, Thos. F. Weedon, Florence. The delegates were unopposed but the majority of them are Wilson men.

The delegates from Santa Cruz county to the democratic territorial convention are: C. J. Kleeman, E. D. Miller, John Maloney, D. G. Chalmers; John McCarty, J. B. McClenahan. They go unopposed and are instructed to observe the unit rule. Robert Williams was endorsed for joint councilman.

The primary election in Tucson last Tuesday, to select delegates to the democratic territorial convention, was a mere formality, as there was only one ticket in the field—in the interest of Shannon. Only 61 votes were cast. Those voted for were the following: M. C. Samaniego, Charles R. Claiberg, J. N. Pemberton, A. J. Carpenter, T. D. Satterwhite, John Devine, Dan Evans, Wm. M. Lovell, L. H. Manning, Vic Griffith, Dr. Purcell, Dr. O. W. Olcott, Chris Christensen, J. W. Smith, James Gaff, Charles McDermatt, Pedro Pellon, Lon Haley, Jack O'Brien, C. S. Wilson, Owen T. Rouse, E. W. Bowers, James Flynn, A. O'Keefe, Ed Hogan.

A Birthday Party.

Miss Laura Woods, who was seven years old last Saturday, celebrated the occasion by giving a party to her young friends, at the home of her parents, Mr. and Mrs. Lyman C. Woods. Mrs. C. E. Taylor, grandmother of Miss Laura, and other ladies, assisted. The children, who indulged in a merry romp and feasted on ice cream, cake and other delicacies.

The guests were: Ollie Gibson, Ruth Pinyon, Emma Newman, Grace and Katie Frederick, Elita Peterson, Ambra Patterson, Nellie Steffy, Annie and Stella Turner, Norma Dixon, Maggie Fegan, Tuisie Rose, Elsie Glenn, Mamie Lou Pendleton, Katie Fegan, Libbie Watts, Willie Tucker, Lucille Slack, Irene Martin, Annie Egner, Louise and Ellen Thompson, Lillian Hittcock, Carlos Cornelius, Sadie Clark, Annie and Eva Goldsworthy, May Gibson, Ethel and Edna Temple.

Dr. A. F. Maisch returned last night from an extended pleasure trip, including many points of interest on the California coast, and Honolulu and the Samoan islands. He was at sea 32 days and the weather was superb on both the outward and return voyage. At Pago Pago, Samoa, the American naval station, he found the U. S. gunboat Wheeling anchored; he enjoyed the hospitality of the officers, and made the voyage to Apia, 60 miles, on the Wheeling. The doctor looks the picture of health.

We are in receipt of a telegram from Phoenix too late for publication, quoting a resolution of the Maricopa democratic convention exacting from every delegate to the territorial convention a pledge that he will vote only for a man who is pledged to work for the construction of the Tonto reservoir by the United States as its first work in reclaiming the arid lands in Arizona. Look out for trouble in the Tucson convention.

Mrs. William Sidow, assisted by Mrs. Inlet, of Phoenix, entertained a few friends last Saturday evening in honor of her husband's birthday. We never saw Mr. Sidow look younger or happier, and we hope he may live to enjoy many such anniversaries.

There appears to be a considerable element in Globe that does not want a competent lawyer and fearless prosecutor in the district attorney's office.
